There are many terrible "American killing lines" in the mainland

After staying in the mainland for a few days, I suddenly heard a new word around Christmas: "America's killing line". After people know that I live in the United States, most of them will ask me this popular online word curiously, hoping to verify the truth. In fact, many Americans, like me, have almost never heard this horror phrase if they don't play video games.

Curiosity made me carefully read some explanations on the Internet and the more outrageous descriptions I said them. It was really boring. I feel that this new word is actually exposing the personal IQ line. People with a little common sense and simple logic can see the loopholes in rhetoric and the exaggerated online deception manipulated behind it. Many people who are ordered to hype will also intentionally or unintentionally reveal many flaws, which makes people feel that the logic is chaotic, confuses right and wrong, and is not worth refuting.

At a glance, you can see that someone wants to tell you a "fact": 40% of Americans can't pay 400 yuan, and soon become homeless, and then die on the street without anyone. As soon as the words turn around, it must be how good it is in the heavenly dynasty... Not only do you know the bottom, but you also guarantee that you will not wander on the streets.

Since it is a scam, it will climb up step by step, and the more it is ridiculous. For example, the party newspaper (Liberation Network) continues to amplify and advertise that nearly 70% of people will enter the 400-yuan "American killing line" at any time. And most people will not have the wealth to survive for more than 6 months.

I looked at my savings for a while. Oh, my God, I became the top rich man

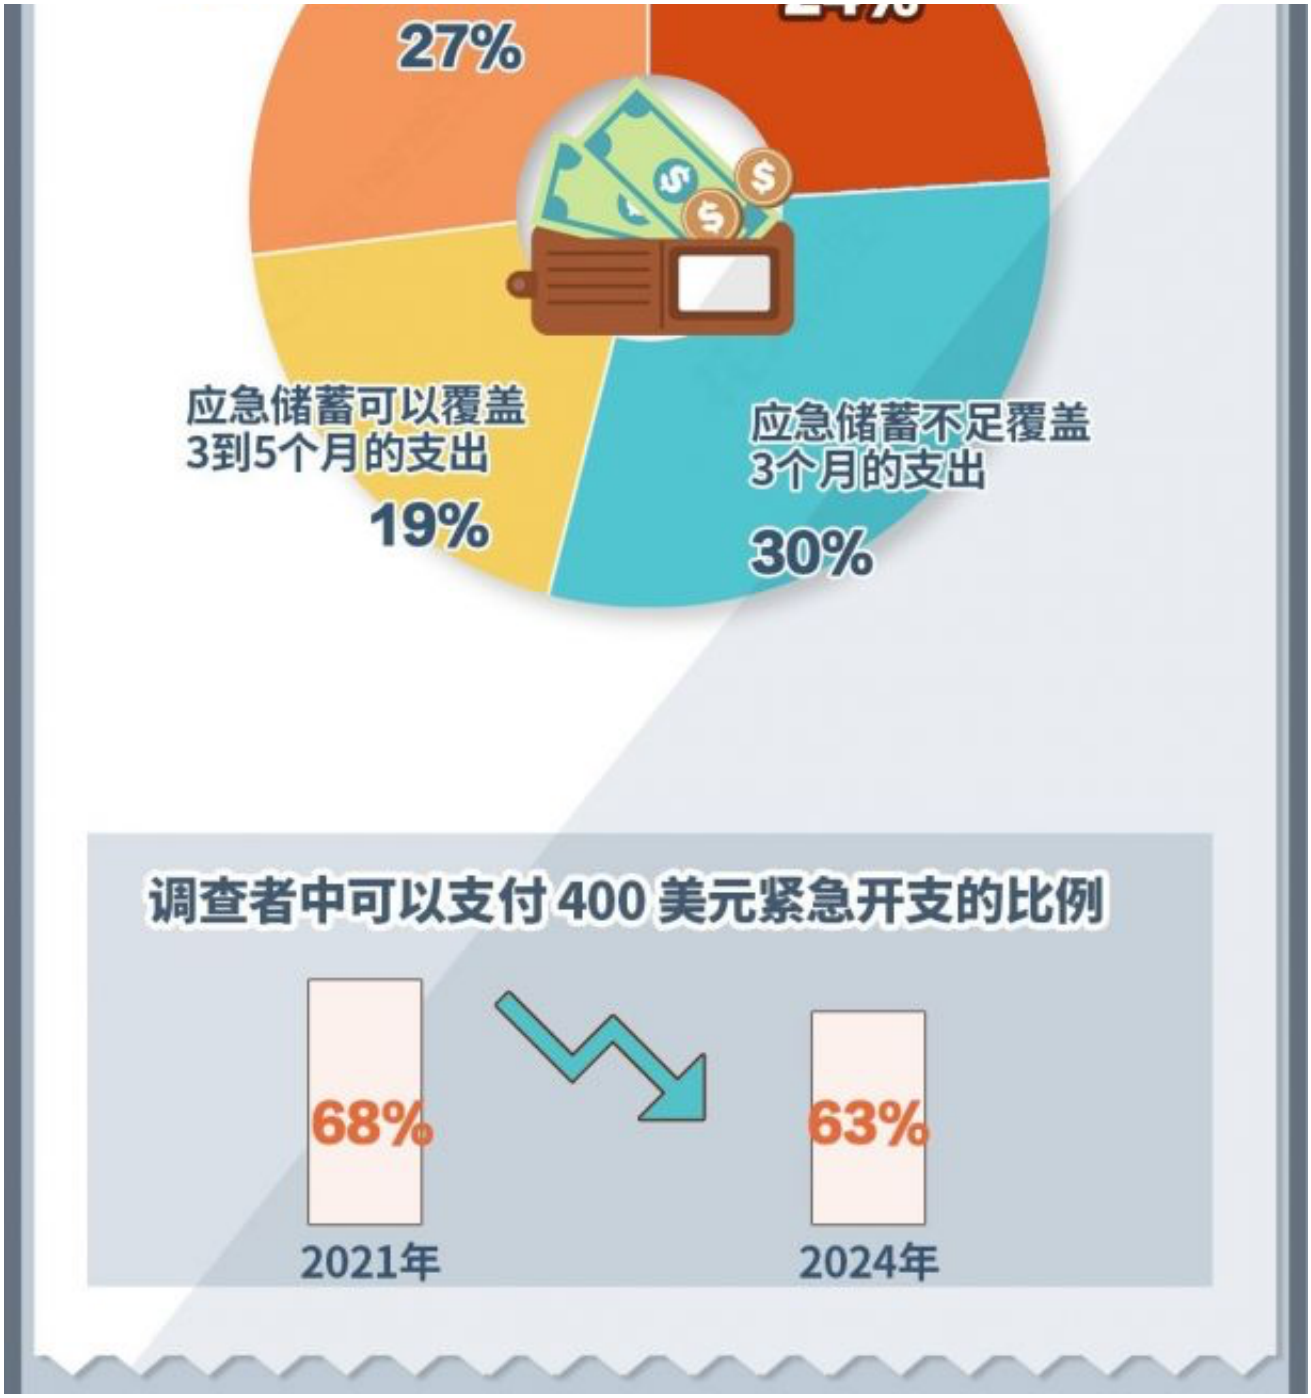
in the United States overnight!

I told the inquirer that the current national population of homeless people in the United States is 0.2% of the total population, about 770,000. The information is open and clear, and it has basically nothing to do with Chinese or Asians.

Most of my friends accept my explanation and understand my hype concerns.

I think that the deception of the "American Kill Line" will inevitably cause a rebound or a backlash phenomenon, which will make many people think of their own predicament and situation. Before long, the discussion of China's killing line will sweep every city or corner of the mainland. Sure enough, public opinion began to turn around. By the New Year's Day holiday, the discussion quickly heated up and rebounded. For example, the "Shanghai Five Killing Lines" appeared on the Internet, which cut off the publicity of itself.

四分之一美国受访者表示没有应急储蓄

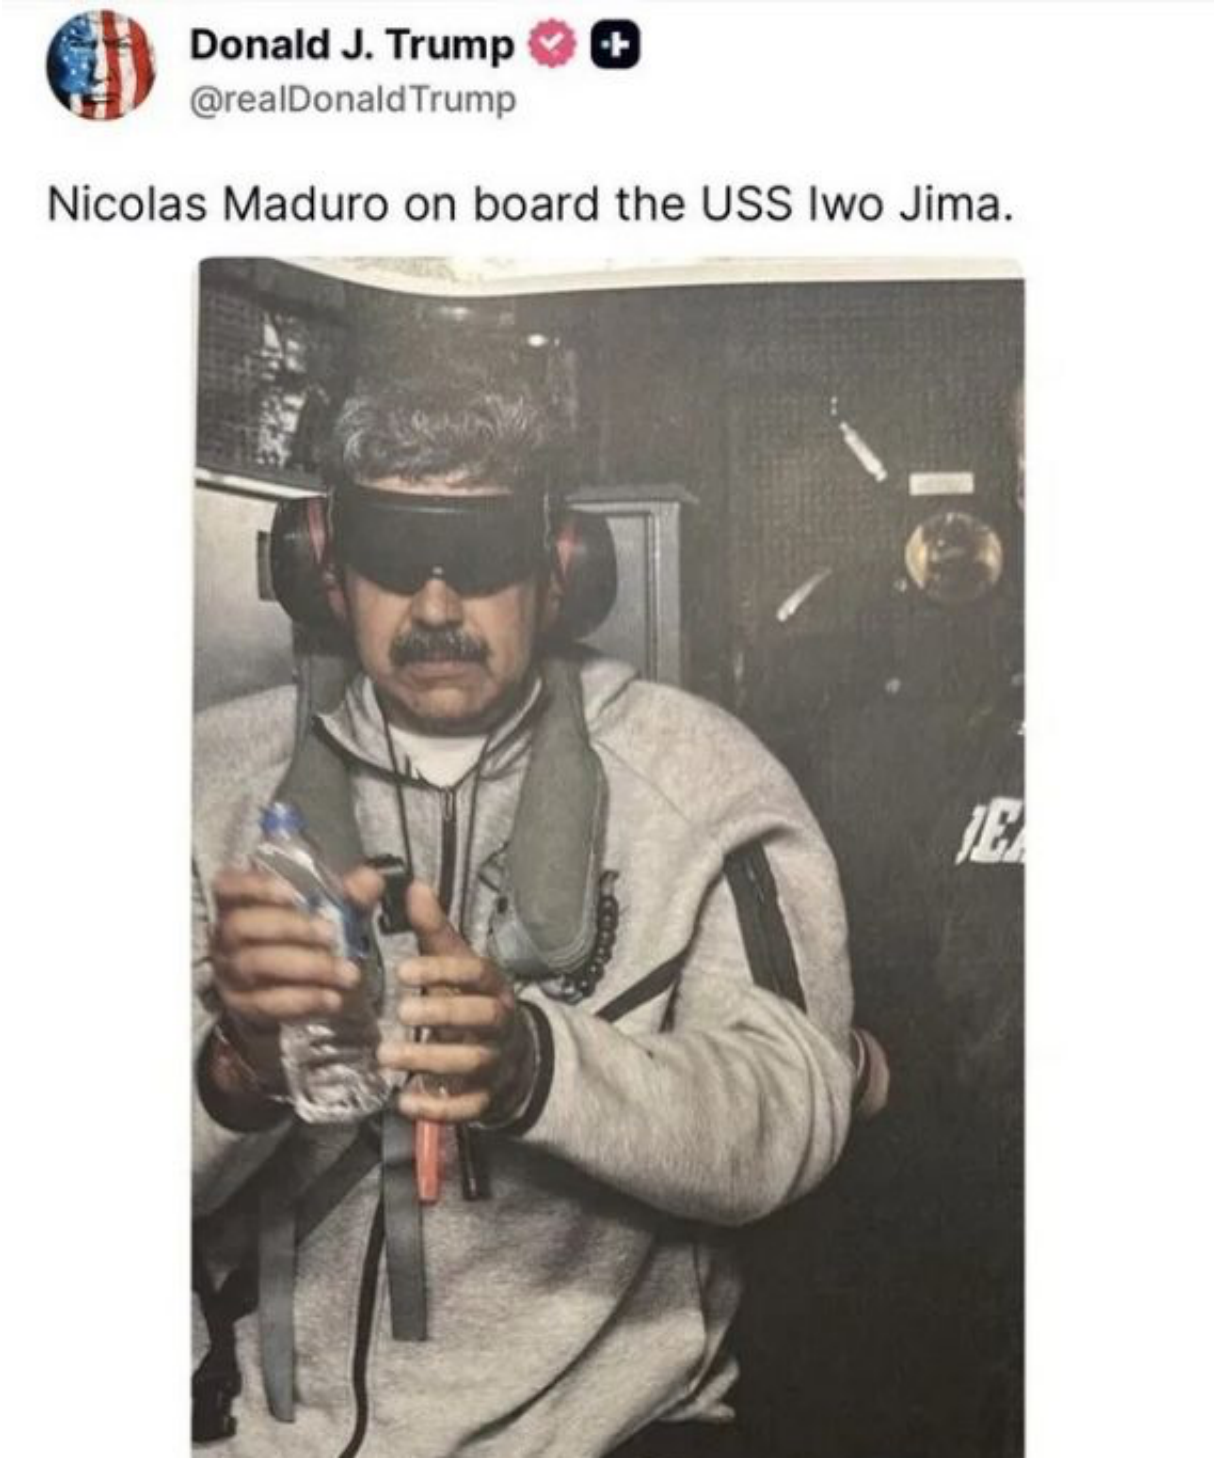


Man's calculation is not as good as God's calculation, and I still miscalculated. In the early morning of January 3rd, there was explosive news all over the world: the United States really has a "kill line"! Anti-American, drug trafficking, private trafficking, etc. are all targets of the United States.

At 2 a.m., more than 80 Delta commandoes rushed into a super military fortress built by China in Venezuela. More than 30 people in Maduro's Cuban Guard were hanged. The U.S. soldiers dragged the "president"

from the bed who did not have time to enter the steel hood, but did not kill him. The operation lasted only three hours, and the Maduros were successfully taken away and sent to the United States for trial. This raid was fast, well-deployed, and completed the mission with no casualties, creating the miracle of modern warfare.

President Trump released a photo of Maduro's capture, which caused a sensation on the Internet.



The defense system previously boasted of being the strongest in South America, with the assistance of China and Russia, such as the Sukai-30 aircraft, the Sam 300 air defense missiles, the Chinese radar, etc., are completely like waste decoration, and the more than 100,000 troops have no ability to react and resist.

Since August last year, the propaganda mouths of the mainland have been hyping: Venezuela has strong Chinese support behind it, how weak and incompetent the United States is, and it is impossible or dare not touch a single hair of Maduro! Official media, experts and retired Kuomintang generals from Taiwan also went into battle together to slander the military and economics of the United States.

It must be pointed out that the "American kill line" of hype of 400 yuan is the central link of this game of chess. The purpose is to boast of the greatness of the Communist Party of China in the Chinese context. In another way, interpret the propaganda term of "east rise and west fall".

Unexpectedly, this "killing line" waving at Maduro shocked some ignorant liars who boasted for the 400 yuan "American killing line" overnight. Some people couldn't control themselves and slapped themselves in

front of the video.

In fact, American public opinion, such as the Washington Times, has recently publicly shown that Taiwan will export "killing" blades to Xi and others if something happens. I don't know how many times this is crueler than Gao Shi's remarks.

However, the mainland media pretended not to hear it, and then pushed the 400-yuan "American killing line" into the public opinion field. At the same time, he desperately hyped and dared not touch Maduro's bold words. Looking back now, it's really a complete performance.

In just one day, Feng Xiang changed. On WeChat, I observed the caution and anxiety of many people. Some people openly expressed concern about China's hundreds of billions of dollars in Venezuela, oil and the safety of President Xi...

And more sarcastic and sarcastic pictures, as well as the official comparison of lies before and after, were dug out. For example, the U.S. military finished Maduro with "1 hour and 22 minutes". This is a satirizing the "fighting nation" momentum of the Russian army in the mainland media when the Russian army invaded Ukraine a few years ago. But up to now, the Russian army has been killed and injured more than one million, and it is still deadlocked there.

Another big joke is that a few hours before Maduro was arrested, he met Xi's "special envoy" and heard that more than 600 agreements had been signed and reviewed. The "brother"'s hyeness failed to make Maduro survive for 24 hours. The dictators' embrace of each other became the lifelong nightmare of the envoys. It is rumored on the Internet that many people have "sacrificed".

Maduro's failure lies in his trust in the bragging and propaganda of the Communist Party of China. Although it has been disgraced in Syria and

Iran before, the Communist Party of China's "Sinshield" defense system is still exted as invincible. In front of the beheading of the United States this time, there was no reaction, and he once again showed all his appearance. Artificial intelligence (AI) answers like this:

大战临头集会打气 重压之下沉着谈判

马杜罗为何不惊慌

●本报特约记者 高祖贵

萨达姆面临最紧要关头

近几天，一些西方专家认为，美国总统布什与伊拉克总统萨达姆摊牌的时刻即将到来。1月24日，英国《卫报》报道说，白宫官员透露，布什将在未来数周内发动对伊战争。俄罗斯参谋部一名高级官员也透露说，根据他们得到的情报，“美国已经决定开战，战斗将在2月中旬打响”。另据美国哥伦比亚广播公司1月25日报道，五角大楼已制定了一份周密的作战计划：在战争第一天向伊拉克发射300—400枚巡航导弹，然后以闪电战的形式占领巴格达。美国媒体则报道说，五角大楼另有一份作战计划——战斗打响后，美军将派特种部队迅速夺取伊境内的油田。

与此同时，美国高层的战争论调也让人感到形势紧迫。五角大楼官员声称，他们将不理会欧洲盟国的反对，“作好在2月中旬出动15万兵力攻打巴格达的准备”。此外，美总统布什、国防部长拉姆斯菲尔德、国务卿鲍威尔、总统国家安全事务助理赖斯、前国防部长沃尔福威茨等人异口同声地表示，萨达姆的时间不多了。专家普遍认为，美国和伊拉克的争执已经到了“最后阶段”。1月27日，联合国“监核会”和国际原子能机构将向安理会提交对伊武器核查报告；28日，布什将发表国情咨文，就对伊政策发出重要“信号”；31日，布什将与英国

几位伊拉克问题专家。专家认为，原因不外乎三个方面：

第一，萨达姆是在用他一贯的“硬汉形象”来应对布什的咄咄逼人。萨达姆的经历中充满“血与火”的考验。他少小船冶，青年时期历尽磨难，但他始终胸怀大志，并在血腥的政治斗争中出人头地，终于登上伊总统宝座。之后他经历了1980—1988年两伊战争和1991年海湾战争的大风大浪。这些经历加上他的个性，使他不会轻易“向敌人下跪”。这些年，他一直巧妙地同美国历任总统玩“猫捉老鼠”的游戏，先后7次化解一触即发的战争危机。或许萨达姆相信，他一如既往的“硬汉形象”会增加敌人对动武的顾虑，以及因担心他“什么都干得出来”而向他作出妥协。

第二，作为伊拉克的统帅，萨达姆必须安定民心，不能让周围的亲信和伊拉克百姓看出他有丝毫动摇，以此来击破美国的计划——让伊拉克人在重压之下群起反对萨达姆。自当上总统起，萨达姆就集各种权力于一身。海湾战争后，他多次改组内阁，使各级政权始终牢牢掌握在他众多亲信和100多万组织严密、效忠于他的复兴社会党党员手中。萨达姆很清楚，大战临近，他在这个敏感时期的一举一动都将对周围的人产生巨大影响。他不能让这些人对他产生怀疑，要让他们一如

危难中的马杜

首相布莱尔举行会谈，会谈可能涉及对伊动武的"时间表"。

面对战争威胁，萨达姆仍显得很轻松。（美联社图片）

萨达姆似乎并不在意

面对美国最强大的压力，萨达姆显得非常冷静。据伊拉克通讯社报道，日前，萨达姆在一次军事会议上对他的高级将领们说："我头一放在枕头上就能睡着。我不需要安眠药。"最近，除了召开几次军事安全会议外，萨达姆并没有特别的举动。他像往常一样会见外宾、体恤民情。记者采访了刚刚从伊拉克回国休假的一名中国驻伊拉克使馆官员。他告诉记者，从美国向海湾调兵以来，他在巴格达就一直没有感受到战争气氛，现在也一样。巴格达市民像过去一样过着他们的小日子，市场上也没有出现抢购风。

同时，萨达姆在行动上也没有向美国退缩。他多次在高级军事会议上表示："胜利一定属于伊拉克！"他叮嘱手下，"在邪恶的敌人踏上我们的土地前，一定要保护好我们的士兵和弹药"，"我们将在地面战斗中击溃敌人"。1月23日，萨达姆的长子乌代向美国发出警告：如果美国执意进攻伊拉克，他们将遭受比"9·11"事件更为惨痛的打击。外界一般认为，伊拉克军队绝非美军的对手，但萨达姆似乎并不这么看。他准备摆开架势，同美军大打一场。他先后更换了负责作战、训练和后勤的3名副总参谋长以及空军司令、海军司令，并在总结海湾战争失败教训的基础上调整了军事部署，将伊拉克全国重新划分为四大战区，构成对现政权的有效"防护网"。目前，伊政府特许美英记者前往北部重镇摩苏尔采访。在摩苏尔和伊拉克北部库尔德人自治区之间的一条公路上，人们能看到大批新建掩体；许多坦克和大口径野战炮正隐蔽驶进阵地；一群孩子正在军队教官的指挥下进行操练。

三个策略对付美国

美军炮弹已经装进炮膛，而萨达姆还在跟布什周旋。他对付布什用的是什么策略？记者就此采访了

Compared with the similar systems of the Communist Party of China (such as the U.S. military) similar systems (such as the Shield of Zeus, the Communist Party of China's "shield" are mainly different in the degree of integration, systematic combat capability, anti-interference and "soft power". The Communist Party of China's system focuses more on hardware stacking and single performance, but integration, algorithm, command and control (C4ISR) and the lack of joint combat capability. In the modern high-intensity electronic warfare and information warfare environment, it is easy to be defeated by the "hybrid warfare" means (electronic suppression, network attack) of the U.S. military. Judging from the example of Venezuela, its "Digital Great Wall" and command system have obvious shortcomings.

The current situation of the Communist Party of China's military technology (taking Venezuela as an example):

1. " "Hardware" is strong, "system" is weak: advanced radar, tank, air defense systems (such as "Sield" air defense capability) are provided, but lacks the ability to integrate these single-point equipment into an

efficient combat network.

2. Insufficient command and control (C4ISR): Insufficient system integration ability and anti-interference resistance, resulting in broken information links, inability to cooperate effectively, and unable to respond to the joint operational command system of the U.S. military.

3. " The "internal use" system is difficult to defeat the "foreign war": The network monitoring technology exported by China is mainly used for domestic stability, not for high-intensity network offensive and defensive battles. When facing the U.S. military, the information transmission is delayed, and the decision is confused.

4. " The "Digital Great Wall" is easy to break through: Beidou, radar and other key nodes are suppressed in electronic warfare, and the data chain is invalid.

The United States waved the "kill line" at Maduro, which made the arrogant cannon party lose face.

The biggest impact of this scandal is in Taiwan, and it is also a comparison that people can easily think of. Military aircraft, warships around Taiwan, etc. have been performed countless times, and even young and old pink people are tired of watching it, and they think that the mouth cannons drools too much. After calling for more than 70 years of "liberation", nothing has been achieved; all day long, self-delust "up and down from east to west", they didn't refute you, but as long as "1 hour and 22 minutes", Maduro was done. But Russian father doesn't have this ability, and he still can't make it happen by bragging.

The 400-yuan "American kill line" on WeChat and Xiaohongshu has become rare, and videos or comments that promote the U.S. military raids occupy the protagonist. Someone showed the carnival celebration of the Venezuelan people and was immediately blocked, but the cover title of the post was still clear.

But the United States really has a "kill line", which is specifically aimed at dictators. The raid in the early morning of January 3rd is not the first case, but the psychological shock left to the world is unprecedented and difficult to erase. Didn't you say that Maduro would be absolutely fine? Why don't you call Wu Jing to rescue him?

Now the mainland people not only believe that the United States has a "kill line", but also believe that there are several. Everyone thinks that it is not so lucky that it can connect to the crooked-necked tree on Jingshan Mountain and cut itself off at will.

Wave to Maduro's "kill line", giving people hope or more kill targets in the future. Someone is discussing the fate of Xiaojin or Khamenei. Can the Communist Party of China protect them? But more people are thinking about their own fate.

Many people began to discuss or fantasize about how the "kill line" could kill Beijing, as shown in the attached figure. Many people also gave plans and suggestions, guessing who would be the leader in the court? Is the outline cover of Xishan Fortress still useful? Thinking of the "China's Military Power Report 2025" just released by the U.S. Department of War, many "secrets" have been leaked, and the United States may have already formulated a new "killing line" of terror, and there are various choices.

Small business owners or private entrepreneurs have rubbed their fists and palms to explore the way to get rich in the post-Xi era. However, the common people are troubled by mortgages, credit, car loans or

unemployment. They are well aware of the Chinese Communist Party's leek killing technology and hope that the United States will come first.

In the early morning of January 5th, Radio Hong Kong quickly sent a picture of Maduro being taken to a New York court for trial. The mainland people stared at the screen, and many people were praying that God would punish the dictator who maliciously spread the virus and created the warm epidemic, and save the fate of 1.4 billion leeks.

At the time of publication, the latest topic of "killing line" in the United States is still brewing in the mainland.
